Jonaines March 14th

Dear Henry,

We live so quiet a life here, that I have nothing to tell you interesting about the place. Your father's cough is a little better. I hope before we return that he will go on & gain so much health as to be able to take the journey to Northampton. Perhaps or Worcester which I wrote to you about & then we shall take you with us if you have so far improved as to be able to share the time from School.

With much love I am your affectionate A. W. Chapman
